

NOTE :

1. Insulation boards are full interlocked at all external and internal corners.
2. Each full size (1200 mm x 600 mm) board to be fixed with minimum 5 no. fixings (60 mm ø heads).
3. At external building openings and corners, vertical spacing of fixings not to exceed 300 mm.
4. Around structural openings, fixing centres not to exceed 300 mm.
5. Insulation board joints offset by minimum 200 mm.
6. Minimum board width 200 mm.
7. In addition to insulation board fixings, stainless steel reinforcement layer fixings may be required through the reinforcing mesh for fire safety purposes on buildings above 2 storeys.
8. Supplementary reinforcement layer fixings are required through the reinforcing mesh along the line of all fire barriers within the system.
9. Subject to specification additional fixings may be required, consult Permarock for further information.

- ① Permarock Insulation (type and thickness to specification) on Permarock Adhesive
- ② Permarock Insulation Fixing
- ③ Permarock Starter Track (drip-edge nosing omitted for clarity)
- ④ Dashed line represents line of external building corner

Where applicable all dimensions and details should be read in conjunction with specialist consultants drawings and the project specification.

All dimensions should be checked on site by the contractor and any discrepancies should be brought to the attention of Permarock Products Ltd.
