

Elevation: Stress Patches at Structural Openings

Isometric: Reinforcing Mesh into Internal Corner at Window Head/Jamb Junction

NOTE :
 1. Reinforcing mesh 'stress' patches applied into Permarock Bedding Mortar after main wall reinforcement has been applied.
 2. Stress patches to be taken right up to the corner to the structural opening.
 3. Stress patches to be positioned approximately centrally at the corner of the structural opening.

- ① Permarock Reinforcing Mesh 'Stress Patch' 500 mm x 250 mm at all corners of structural openings
- ② Dashed line represents line of structural opening
- ③ Permarock Reinforcing Mesh applied into the internal corner at the window head/jamb junction

Where applicable all dimensions and details should be read in conjunction with specialist consultants drawings and the project specification.

All dimensions should be checked on site by the contractor and any discrepancies should be brought to the attention of PermarockProducts Ltd.
